Clint's Daily Checklist

Established Merch · Customer Success + Sales · Claude: "start my day" · "sales sweep" · "CX sweep" · "shop pulse" · "sundown"

Sales opps trump all. A phone call, a customer inquiry, a quote request (contract or direct) beats everything on this page. Get it in Printavo and in their hands to approve today. Then come back to the list.

Every morning (the only part on the clock)

- ☐ **First thing** Read the at-risk job list (Claude builds it at 7:20): schedule vs what customers were promised.
- ☐ **8:00** Production meeting: raise concerns, confirm details, answer the crew's customer questions.
- ☐ **8:15** Overnight / weekend email (clint@ + sales@). Skim and send the Claude drafts.
- ☐ **By 9:00** Every website lead called and logged in Pipedrive. Luke's email already told them you'd call.
- ☐ **Then** Today's 5 Lead Drop leads and #cx-daily.

Sales, all day

- ☐ Quote requests answered: built in Printavo and sent same day
- ☐ Quotes out 2+ days, not approved: call them
- ☐ Website leads: first contact within the hour, logged
- ☐ All 5 Lead Drop leads touched and logged
- ☐ Fall list / open deals worked by value (Rock 2: $105,437 by 11/30)
- ☐ #cx-daily stale-deal calls made
- ☐ Every call ends with a next activity + date

Pipedrive, all day

- ☐ No open lead or deal without a next action (target 0)
- ☐ Won in Printavo → mark Won, link the order #
- ☐ Dead → mark Lost with a reason
- ☐ If it isn't logged, it didn't happen

Customer success, all day

- ☐ Dates at risk: tell the customer before they ask
- ☐ Stuck jobs: same status 3+ days, chase who owns it
- ☐ Proofs waiting on approval: nudge
- ☐ Jobs due this week: a human update (Claude drafts it)
- ☐ Ready, not picked up / shipped: follow up
- ☐ Check in with Mechelle on promo statuses
- ☐ Every quote checked against the margin floor before it goes out
- ☐ Problems: our error = free reprint; anything past that → Luke
- ☐ Crew questions about a customer: answered same day

Sundown Rule, before you leave. Every email that needs a response gets one today, even if it's just *"Got it… I'll get you an answer tomorrow."* Claude drafts them at 3:45; you skim and send.

- ☐ Every sundown draft sent (Friday: "Monday")
- ☐ Anything answered "tomorrow" is on tomorrow's list
- ☐ Tomorrow's at-risk jobs ready for the 8:00 meeting
- ☐ Shop pulse to Luke: what needs him, sales, production, customers

The Six Promises: we hit the date · nothing wrong ever ships · same-day answers · one proof · specs on file · if we miss, we make it right.
