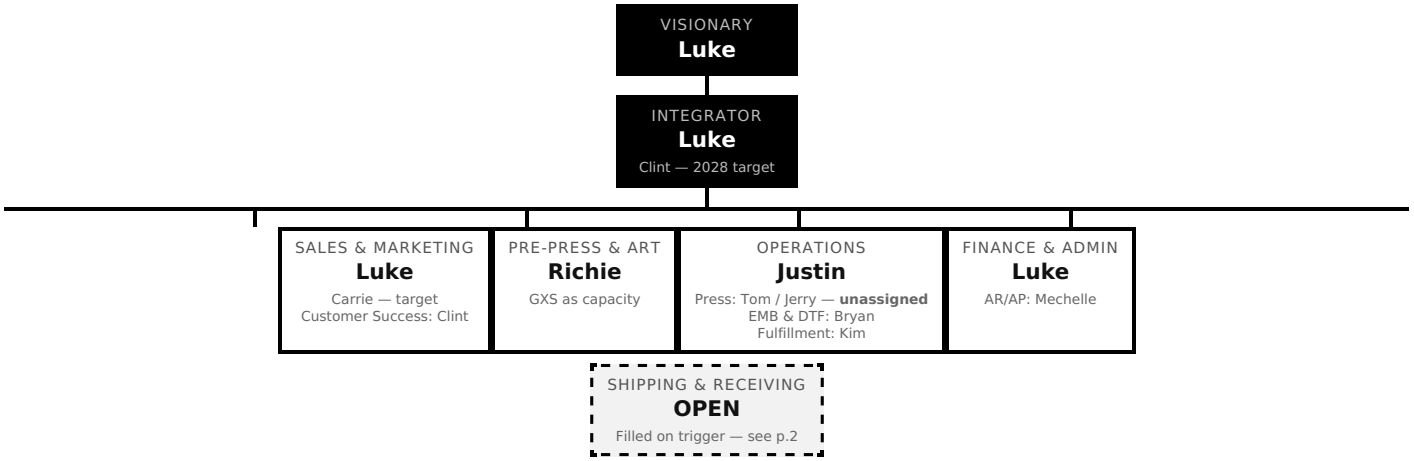
Accountability Chart — Q4 2026 Draft

EST. MERCH · 9 PEOPLE, 4 MAJOR FUNCTIONS

Sept 23, 2026
Rev 2.0 — draft for leadership
Structure first, people second



THE SEATS — FIVE ROLES EACH, ONE NAME

VISIONARY — Luke **G ✓ W ✓ C ✓**

The seat he should end up in, alone.

1. Own the V/TO — vision, 10-year target, 3-year picture
2. Culture and the core value — WE GIVE A DAMN
3. Big relationships: top accounts, Seafoam, Carrie, Jeff, SanMar / S&S
4. Capital and equipment decisions
5. New revenue — find the next lever before the current one flattens

INTEGRATOR — Luke today **G ✓ W ✗ C ✗**

Clint, 2028 — gated on Customer Success being backfilled first.

1. Run the L10 and the Rock process
2. Hold the leadership five accountable to the Scorecard
3. Harmonize sales and production — what's promised can actually be made when promised
4. Remove obstacles; resolve issues between functions
5. Own the P&L against plan

SALES & MARKETING — Luke today, Carrie target **G ✓ W ~ C ✗**

1. Own the revenue number
2. Own pricing matrices and quote accuracy
3. Direct the ad spend and the agency
4. Build and defend the top accounts
5. Own retention and reorder rate — the largest number in the business

PRE-PRESS & ART — Richie **G ✓ W ✓ C ✓**

The one clean GWC pass on the chart. Art is the industry's #1 failure point — this is a major function, not a support job.

1. Art in, print-ready out — owns the whole path
2. Separations and screen development to standard
3. Customer proofs and approvals, to a stated turnaround
4. Embroidery digitizing sourced and QC'd
5. Manage GXS as capacity — route, spec, QC, escalate

OPERATIONS & PRODUCTION — Justin **G ✓ W ? C ✗**

Conditional. Capacity fails while he is also catching, expediting and doing count-ins. Wants It has never been asked.

1. The day runs to the schedule — open through shutdown
2. On-time delivery
3. Quality — owns the misprint number
4. Takes the handoff at the morning meeting and runs the floor from it
5. Trains and develops the crew

FINANCE & ADMIN — Luke **G ✓ W ✗ C ✗**

1. Cash — AR collection, AP timing, account stays positive
2. Books current, closed monthly
3. Payroll run and compliance
4. HR — onboarding, handbook, safety
5. Vendor accounts and terms

Gaps, Triggers & the Sequence Out

THE FOUR HONEST GAPS

GAP	WHAT IT IS	WHAT CLOSES IT
Luke in 4 of 6 top seats	Visionary, Integrator, Sales & Marketing, Finance & Admin. The system exists to fix this.	The sequence below. Sales goes first.
Press has no owner	Tom and Jerry are equals. Works today because they're cohesive; fails the first time they disagree or Luke isn't there. Violates Rule 7.	One name. Luke's call. Unresolved.
Justin fails Capacity	Cannot run the floor while also catching, expediting and doing count-ins. QC is what gets dropped — that's the misprint spike.	The S/R hire. Trigger below.
Justin has never been asked	Richie was assumed into Production Manager and failed on Wants It. Same mistake is queued up.	A 10-minute conversation.

THE S/R TRIGGER — WRITTEN, NOT WISHED

HIRE SHIPPING & RECEIVING WHEN:

- The screen print lane exceeds **80% of daily capacity for three consecutive weeks** on the Printavo block sweep, **and**
- The sweep reports 0 fetch failures for those weeks — the load number must be complete to count.

Measured automatically. Cannot be fudged. Ties the hire to the thing that actually breaks, not to a feeling that the shop is busy.

THE SEQUENCE OUT — 4 SEATS TO 1

WHEN	MOVE	LUKE EXITS
Q4 2026	Carrie takes Sales with her book attached	Sales & Marketing → Luke keeps top-account defense only
Q1–Q2 2027	S/R hire on trigger; Justin's capacity clears	Operations becomes real — Luke stops being the escalation path
H2 2027	Bookkeeper or expanded admin absorbs AR/AP and close	Finance & Admin → oversight only
2028	Clint to Integrator, once Customer Success is backfilled	**Integrator — Luke is Visionary only**

RULES THIS CHART IS HELD TO

- **Every seat has exactly one name.** A person may hold several seats. A seat never holds several people.
- **Structure first, people second.** Draw the seats the business needs at $3MM, then put names in. Starting from the nine people you have just re-describes today's mess with better labels.
- **Any headcount change triggers a same-week chart review.** Ian left, Kim arrived, and three seats drifted because nobody redrew this.
- **Rocks belong to the leadership five. Scorecard numbers belong to everyone** — including Tom, Jerry, Kim and Mechelle, reported by them, in the meeting they attend.

Status: draft for the leadership five. Two decisions outstanding — the press owner, and whether Justin wants the Operations seat. Neither can be resolved on paper.
